Hello everyone!

Oh, how time flies and suddenly March is coming to an end!

We don't know about you but we have been hearing a lot of these lately:

"Are you contesting? Are you a role player? Are your education goals on track? Have you renewed your membership?"

Is this what you inwardly or outwardly look like?  
Are you thinking ... "Oh my goodness! Is this  
what Toastmasters is really about?"

What about Communication?  
What about speeches and having fun?

It was mind boggling for us when we were "younger" Toastmasters. So in this newsletter, we thought it would be a good idea to spend some time to get the members feedback on WHY they joined and why they are still energized about Toastmasters!

Check it out at the Featured Member page! But first, let's have the announcements.

Here's a quick fun fact that might help set the mood as you "swipe", "scroll" or actually physically flip to the next page:

*"The beauty of a master time piece still requires the tedious planning and execution of the critical pieces that help it keep precision time. This in turn serves the watch bearer well, as timekeeper of reliability and accuracy"*

We've checked it out and it is great! It can even detect if you are a member of more than one club allowing you to select the club first before going for the role!

## Hello from Adrian Lean

*"Hello! I joined Toastmasters in 2014 under Honeywell Penang Toastmasters Club, from Division H. Toastmasters not only taught me the value of speaking to an audience, it also gave me the "WHY" to do it. I love the idea of being able to enrich myself in the knowledge of public speaking and learning leadership skills.*

*At the same time I am able to inspire and encourage others to do the same. Toastmasters provided me the perfect platform to do all that!"*
