Half the term has passed. The physical year (2017) has also gone by. Perhaps for some, it's the time to say I am now in Toastmasters for 1 year, 3 years, 5 years or even 30 years. When time has passed us by, we cannot go back and change things that had already happened. What can we do then?

What do you want to achieve this year? Is there something you really want? Maybe it's the routine of working out in the gym. Perhaps its losing that 5 kgs through a disciplined diet and exercise. For another, it may be cleaning out the storeroom which has accumulated 20 years of treasures. Or perhaps it is to take part in the International Speech Contest.

When I am being asked, what do I really want to achieve this term as District Director, I would reply it is the continuation of what I had said at the beginning of the term 2017-2018. The vision of making the journey a meaningful one for another Toastmaster is always there. I have said that if an individual enjoys his / her experience as a Toastmaster, be it at a club meeting, a Toastmaster function or even at conferences, the chances of him / her remaining a Toastmaster for life is very high. If I could influence another person positively in my capacity as a Toastmaster, i would be very pleased. If I could share the benefits of Toastmaster to someone who has never heard of it before, that would be a step in the right direction. We are all Ambassadors of Toastmasters.

This is nothing new. What Club meetings are all about, what training including DOT, COT is all about (IMHO), ultimately is the empowerment and equipping of Toastmasters to enable another member enjoy a meaningful and wonderful Toastmasters journey.

Wishing you a wonderful Toastmasters journey ahead!
